Numerous Favorable Developments Impart Greater Cheerfulness to General Financial Situation.

BY MORNING JOURNAL SPECIAL LEADER WRITER
New York, Dec. 3.—Numerous favorable developments imparted greater cheerfulness to the general financial situation today. Trading in bonds on the stock exchange was broader and larger in the aggregate than at any time since the recent resumption and greater firmness was shown by the more seasoned issues. It was plain, however, that the line was being more closely drawn between speculative and investment bonds, the latter being in greater favor.

Dealers in some of the obscure bonds were again severe, ranging from 1 1/2 to almost 6 points. The more substantial advances included Chicago, Rock Island & Pacific Railway's and New Haven's, New York Railways Adjustment 5's and New York, Westchester & Boston 4 1/2's, the latter recording 3 1/2 points on their spectacular decline of the mid-year.

Accepting the new high prices recorded by the New York City 6's as a criterion there was an increased inquiry for almost all classes of short term notes. The \$5,000,000 Swedish government loan taken by a financial syndicate gave every promise of success, an attractive feature being the high interest yield.

There were many rumors of further loans by our bankers to foreign governments but these lacked confirmation.

Money for the shorter dates was obtainable at lower rates and call loans went down to 3 1/2 per cent. The loss of money indicated that clearing house institutions have lost a considerable sum to the sub-treasury, owing largely to the heavy payments of special revenue funds and further retirement of emergency currency.

Exchange on London was still slightly easier, but reichmarks continued strong. The Bank of England made an indifferent weekly exhibit, showing a loss of \$4,000,000 gold.

Additional railway returns for October showed further heavy losses in net earnings.

In response to a general demand by members and their clients, the stock exchange authorities today published two lists of stock prices, the first at 1 o'clock and the other after the close. Both contained minimum and bid and asked quotations and the latter list including final prices.

Today's closing prices in part were:

Beginning tomorrow the exchange will publish one list embodying these quotations after the close of business. This list will be carried on all the stock tickers controlled by the exchange.

CHICAGO BOARD OF TRADE.

Chicago, Dec. 3.—Profit-taking by longs in wheat today more than wiped out an early advance that was due to higher cables. Closing prices were heavy, 3/4 to 1/2c under last night. Corn suffered a net loss of 5/8 to 1/2c. In provisions the outcome was 2 1/2c to 1/2c advance.

Depression during the last half of the day in the wheat pit contrasted strongly with the bullish sentiment that prevailed at the start. Foreign news had been almost uniformly in favor of an upward in values with Liverpool reporting that offerings there were light, and the demand increasingly urgent. Besides, advices were at hand that Italy had extended until June a reduction of the custom house charges on imports. There
